SUMMARY

Motivated and detail-oriented Information Technology student with a strong interest in DevOps, Cloud Computing, and Software Development. Passionate about learning new technologies and building practical projects using Python, Java, Git, Linux, Docker, and AWS basics.

EXPERIENCE

AI for Sustainability Virtual Internship

AICTE

December 2025 - January 2026

- Developed a Python script to automate the extraction of skills and keywords from resumes using NLP techniques.
- Integrated the NLP-based resume parsing script with GitHub Actions to automate skill extraction for future AI roles.
- Designed and implemented a recommendation engine using collaborative filtering and content-based approaches to suggest relevant internships based on extracted skills and user profiles.

PROJECT

ML - BASED RESUME SCREENING

- Extracts skills and keywords from resumes.
- Engineered a Python-based solution utilizing Natural Language Processing (NLP) techniques to identify and extract key skills and relevant keywords from unstructured resume text in resumes.

AI - Based Internship Recommendation & Smart Allocation Engine

- Designed and implemented a recommendation engine using collaborative filtering and content-based approaches to suggest relevant internships based on extracted skills and user profiles.
- Developed a Python script to cleanse and standardize extracted skills and keywords, ensuring data quality for the recommendation engine.

EDUCATION

B.Tech - Information Technology

JJ College of Engineering and Technology • Trichy • 2023

- CGPA: 8.40.

HSC

Saraswathi Matriculation Higher Secondary School • kollidam • 2023

- 81%.

SSLC

Ramesh Matriculation Higher Secondary School • Pudupattinam • 2021

- 85%.

CERTIFICATIONS

CLAUD 101 - ANTHROP

2026

Artificial Intelligence and Machine Learning

Explain • 2025

SKILLS

python, Java, SQL

Git, GitHub Actions

Linux, Window OS
