SUMMARY

Computer Science Engineering student with strong problem-solving skills and knowledge in software development, testing, and emerging technologies. Skilled in Java, SQL, and web technologies with hands-on experience through academic projects and self-learning. Eager to apply technical skills, contribute effectively, and grow in a professional environment.

EDUCATION

B.E – Computer Science Engineering

- J.J. College of Engineering and Technology | **CGPA: 8.6** | 2023 - Present

HSC - Lakshmi Matric Hr. Sec. School | 2022 – 2023 | Percentage - 87.

SSLC – Lakshmi Matric Hr. Sec. School | 2020 – 2021 | Percentage - 75

PROJECTS

Student Dropout Prediction System | Python, Machine Learning

- Built a machine learning model to predict student dropout probability using academic data.
- Performed data preprocessing, feature selection, and model evaluation.
- Used Python libraries and Scikit-learn for model training and prediction.

Insurance System | Software Testing

- Performed manual testing using Jira for an Insurance Management System.
- Created test cases, user stories, and bug reports.
- Automated workflows using Playwright and VsCode.

Digital Voting System | Java

- Designed and developed a secure digital voting application using Java.
- Implemented voter authentication, secure vote casting, and result management modules.
- Applied logical validations to prevent duplicate voting and ensure data integrity.

INTERNSHIP EXPERIENCE

Web Developer Intern – Cognifyz Technologies

- Developed responsive and user-friendly web pages using HTML and CSS
- Implemented frontend components based on project requirements
- Collaborated with team members to improve functionality and user experience
- Participated in debugging, testing, and optimization of web applications.

SKILLS

Programming Languages : Java, Python, SQL

Web Technologies : HTML, CSS

Software Testing : Manual Testing, Automation Testing, Database Testing, Test Case Design, API Testing

Tools & Platforms : Postman, Playwright, JIRA, GitHub, VS Code, Bruno

Core Concepts : SDLC, Agile Methodology, Data Structures & Algorithms, Machine Learning, Artificial Intelligence , Object Oriented Programming (OOP).

CERTIFICATIONS

- Generative AI Fundamentals – Google
- Postman API Fundamentals Student Expert – Postman

LANGUAGES

Tamil | English.
