Career Objective

Motivated Computer Science and Engineering student with strong programming and problem-solving skills, seeking an opportunity to contribute to innovative software solutions. Eager to learn and grow while delivering value in a dynamic work environment.

Professional Experience

Web Development Intern, VaultofCodes 09/2024 – 10/2024

- Completed a 1-month remote internship, working on real-world web development projects
- Built and optimized responsive web applications using modern technologies
- Collaborated with team members to implement features and improve performance

Education

Bachelor of Engineering at Computer Science and Engineering, 2023 – 2027
J.J college of Engineering and Technology Trichy
CGPA: 9.02 (till 5th Sem)

HSLC, St.Isabel Girls Higher Secondary School 2023
84.8% Pattukottai

SSLC, Brilliant cbse school 2020
90% Pattukottai

Skills

• Communication Skills	• Team Collaboration
• C	• Java
• SQL	• AIML (basics)

Achievements

UI/UX Designing Date: Aug 2024	Information Technology Fundamentals – IBM Skills Build Date: 2026-01	The Complete HTML Course- UDEMY Date: 2026-01-21
AI Fluency-Claude code 101 Date: 2026-05-01		

Projects

Online Exam Proctoring System

- Implemented AI/ML algorithms such as CNN and Haar Cascade for detecting suspicious behaviour using python.
- Integrated webcam monitoring and automatic malpractice detection.

Real-time Public Transport For Small Cities

- Developed a GPS-based public transport tracking system for small cities that provides real-time bus location and ETA updates through a mobile application.
- Implemented features like route analytics, SMS alerts, and AI-based route optimization.
