OBJECTIVE

Enthusiastic and hardworking graduate with a solid academic foundation and a willingness to learn, seeking an entry-level position where I can apply my theoretical knowledge, develop practical skills, and contribute positively to organizational goals while building a strong professional career.

EDUCATION

JJ College of Engineering and Technology, Trichy.	2023-2027
B.E-Computer Science and Engineering(Cyber Security)	CGPA: 8.52
St. Vincent Matriculation Higher Secondary School, Trichy.	
Higher Secondary Certificate (HSC) – Class XII	(2022–2023) 85%
Secondary School Leaving Certificate (SSLC) – Class X	(2020–2021) 75%

TECHNICAL SKILLS

Programming language:

Java,
SQL,
HTML and CSS.

PROJECTS

Smart Crop Vision

- Developed an automated plant disease detection system using Convolutional Neural Networks (CNNs) to classify plant leaf images.
- Implemented image preprocessing, model training, and evaluation to improve disease classification accuracy.
- Gained hands-on experience in deep learning, computer vision, and dataset handling using AI-based techniques.

Web Game

- Designed and developed an interactive browser-based game with responsive UI for desktop and mobile users.
- Implemented core game mechanics such as player controls, scoring system, levels, collision detection, and game-over logic.
- Built engaging front-end interfaces using modern web technologies with smooth animations and user-friendly design.

CERTIFICATIONS

- Certifications:** Claude 101
Claude Code 101
IBM IT Fundamentals: Basics of computer systems and networking
IBM IT Support Technician: IT support and troubleshooting skills
Cyber Security (Simplilearn): Fundamentals of cybersecurity concepts
